With increased focus on measuring effectiveness and improving quality of education across states. Special care is taken that students should be given equal and quality education without losing sight of need to constantly upgrade the education infrastructure. The nation is adapting to this change of leveraging digital technologies fast.

Recognising that transformational interventions towards inclusive education can lead to growth, we have taken the lead in recognising such initiatives by States by instituting SKOCH Smart Education Award 2017, in an attempt to 'Create a Learning Revolution' at the School level.

The award is aimed at recognising innovations, successes and solutions that have been implemented / introduced that have led to overall improvement in management of the institution, evaluation standards, creating benchmarks, academic excellence, training and reskilling while infusing technology for fostering excellence in teaching, learning and leadership.

SKOCH Awards, since 2003, have been recognising such successes and practices that have become the only non-san benchmark of best practices and best innovations in India. The benefits of participating in our Awards are many:

- .. Benchmarking and peer review across solutions.
- .. National visibility of your work to policymakers, industry and end-users through a valuable third party endorsement.
- .. The pride of being honoured by the highest independent Award in India.
- .. Cross-pollination of ideas opening newer opportunities.
- .. Chance to scale and succeed.
- .. Being part of the world's largest independent Knowledge Repository of Best Practices.

We invite you to share your success story with us and participate in the SKOCH Awards by filling up enclosed nomination form. You may also fill nomination form online at www.skoch.in. Since there is no cap on the number of nominations, I urge you to fill as many nominations as possible as it leads to cross-pollination of ideas and better nomination of best practices. The last date of filing nomination(s) is 7th February 2017.

SKOCH Group:- Skoch Media, Inclusion, Events, Awards, Books
